

BEACH & DUNES Report 2020

The Beach and dune area was a bright spot in a season clouded by the Corona virus.

The beach parking lot was restored late spring. The surface was filled to repair pot holes and ruts from many years of use and sometimes abuse. The area was graded, smoothed and resurfaced with gravel. The restoration was funded by Community Sales. This was made possible thanks to the efforts of Dede, her tireless volunteers and by all of you sporting a new Q hat, shirt or accessory.

The beach was raked and groomed early every Friday morning beginning before Memorial Day ending with Labor Day. Seaweed, litter and untold flotsam and jetsam was removed each week.

Seasonal damage to the snow fence will be repaired later this fall in preparation for winter storm activity.

Planned benches for the boardwalk entrance have been delayed with availability and lead time issues.

Thank you to all who have contributed to keeping this special asset special.

Peter Rettig, *Manager, Beach & Dunes*
