

Annual Meeting Report of Police/Beach Security 2021

Summer of 2021 began a bit precariously with Covid back at our heels but we persevered and maintained a safe and orderly community throughout the summer. Our block and pond guards were diligent and responsible keeping Central Beach parking lot, beach and pond safe and organized.

We saw few issues except persistent eating on the beach and more day-time alcohol than we've seen in a while. I'd like to take this opportunity to remind owners that drinking alcohol on the beach is illegal in the state of Rhode Island and would appreciate you passing this information on to your family, friends and renters.

In early July of 2022, we will be implementing a pilot program that was approved by the Board of Governors in 2019 (and delayed due to Covid) that engages a professional security team to help monitor the beach as well as checking in at the pond, tennis courts and playground.

In conclusion, I'd like to thank my QCB guards for a fantastic job this summer- I received many complements on a job well done- it couldn't be done without you!

Thanks to:

Jane, Katie and Jeremiah Murphy
