

Dear QCBFD,

The Boil water advisory has been lifted by RIDOH.

Our Water storage tank samples all negative over the weekend.

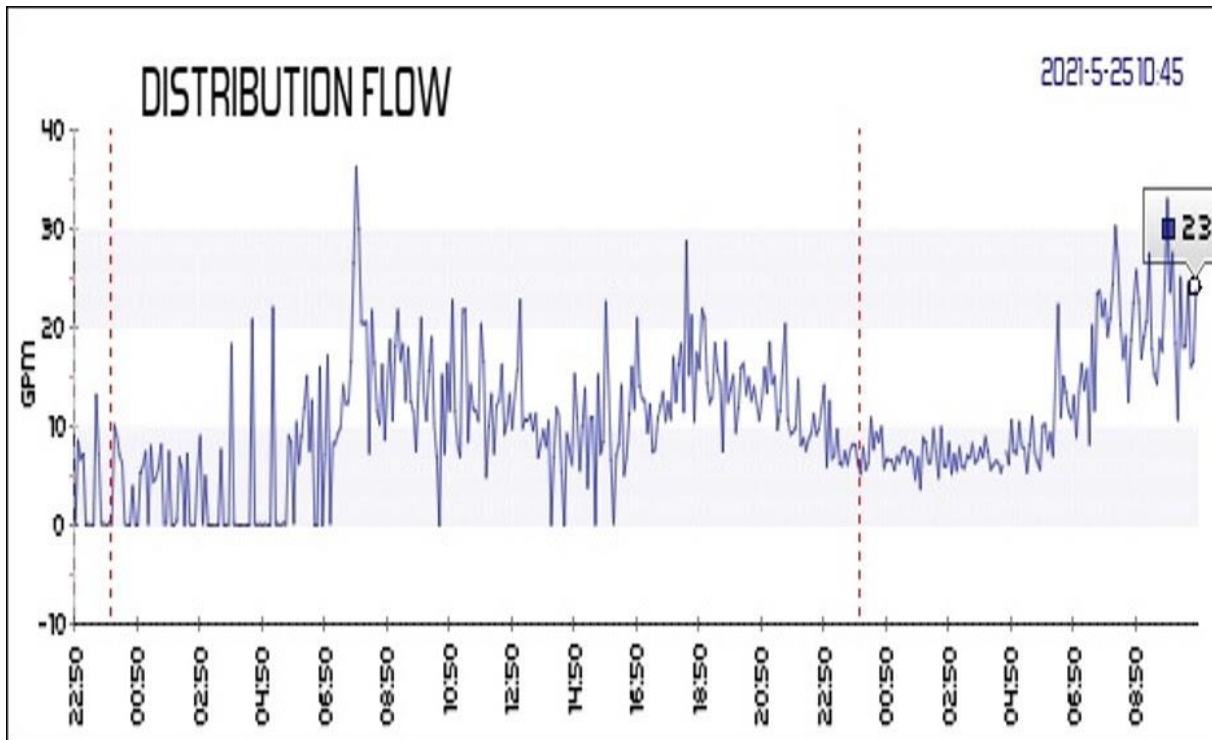

The official RIDOH language is below.

Two other items:

1): Water usage still seems excessive for this time of year. Please look at this graph. You can see that the distribution flow is at 10 GPM or more constantly from 10:30 Monday evening until 6:30 this morning. 24 hours earlier, the first dotted red line, Monday early morning, you can see the distribution flow has dropped to zero intermittently.

So the question is????? who ????? is using 10 gallons per minute in the early morning hours? That is the equivalent of 1 or 2 wide open faucets or 14,400 Gallons in 24 hours!

Please be considerate and check your home, outdoor faucets and outdoor garden hose attachments.

2. Lucas, Boulder, Bayview and Kenyon will be chip sealed in mid to late June. Recall they were not chip sealed 2 summers ago. As we get a more definite date we will update the community.

Here is the official RIDOH notice. for the boil water rescind.
