

**Notice of Meeting
QCBFD Public Works Committee
November 12, 2022, 9AM
Quonochontaug Grange
Post Road
Charlestown, RI**

Present: Bob Frazier, Bill Meyer, Fred Newton, George Prior, Greg Reppucci, Jim Monstream, Steve Peet, Tiffany VanEislander, Tom Frost

Absent: Bob Roseman, Vin Bailey

Additional Attendees: Roy Jacobsen, Bob Ferrari (NWSI)

Meeting Called to Order: 9:01am

1. Bob Ferrari of NWSI attended the meeting to walk through the proposed water distribution system. The proposed design was discussed in detail and the Committee was assured the design would address the Committee's concerns, would not impact DOH approval, and would also be in line with CRMC regulations. The proposed design is to be submitted by NWSI to the State in November (and prior to end of year), with expectation of approval by early 2023.
2. QCB water distribution system was discussed, including a recent corporation stop replacement and areas of the distribution system to continue to monitor.
3. An update on water access to lots 290/294 was provided; a date is to be scheduled to connect these lots to QCB water system.
4. A brief update on wetland restoration / CRMC status was provided.

Meeting Adjourned: 11:42am

Respectfully submitted
Greg Reppucci
